## 簡介 About

建造業議會推出《在酷熱天氣下工作的工地安全指引》，向業界提供在酷熱天氣下可即時實施的良好作業建議，以控制在酷熱天氣下工作的危害，不但可確保建造業工地人員的安全和健康，更可提升工作效率和生產力。是次「生命第一 - 行出安全」網上研討會邀請了政府、承建商及不同機構代表分享如何確保工友於酷熱天氣下工作的安全和健康。

The Construction Industry Council published “Guidelines on Site Safety Measures for Working in Hot Weather” to set out good practices that can be readily implemented by industry stakeholders during the summer months, in order to minimise the risk towards construction site personnel working in hot weather. It not only ensures safety and health protection to construction workers, but also enhances the work efficiency and productivity. Representatives from Government, project clients and different organisations are invited to this upcoming “Life First – Walk the Talk” to share site safety measures on working in hot weather.
