Surfing the golden era with Smart Site Safety System

In February, the Development Bureau issued the Technical Circular (DEVB TC(W) No. 3/2023) on Smart Site Safety System (4S) to set out the policy on adoption of 4S to enhance our safety management system, with a view to striving for further excellence on the safety performance in public works contracts. According to the circular, all capital works contracts with estimated contract sum exceeding \$30 million shall adopt 4S. As for private works sites, the Government will subsidise contractors to adopt 4S through the Construction Innovation and Technology Fund (CITF), accelerating the drive of smart site safety and uplifting construction safety through the use of innovative technologies.

i-Club Technical Site Visit to Mawan Cross-Sea Tunnel Project at Shenzhen Launch

On August 31, i-Club members visited the Mawan Cross-Sea Tunnel Project and Qianhai Centre. We had the privilege of witnessing their tunnel project, featuring state-of-the-art technology such as Tunnel Boring Machines (TBMs) and smart site management. The visit left our members inspired and motivated to apply the knowledge gained to their own projects, driving progress in the industry.

專題故事

安全智慧工地 開創建造業黃金時代

為令公務工程的建築安全更進一步，今年二月，發展局就「安全智慧工地」系統發出工務技術通告(DEVB TC(W) No. 3/2023)，為工地安全系統提供政策指引。通告規定所有預計合約金額超過三千萬元的工務工程合約應採用「安全智慧工地」系統。至於私人工程，政府將透過建造業創新及科技基金(基金)資助承辦商採用此系統，加速推動工地安全智能化，透過創新技術提升工地安全。

香港建造業議會致力持續支持業界通過基金採用「安全智慧工地」系統，同時也將加強宣傳，提供相關信息和支援，推動和協助業界達致「工地零意外」的願景。
